Deepak Champatiray

IBM BPM Technical Architect, Certified SAFe® Agilist

I'm a self-motivated software engineer whose passion lies in designing functional and beautiful user-experience. With eight years of hand-on experience on IBM BPM/Lombardi platform, I've worked on all facets of software development life-cycle. A insatiable urge towards learning and perfection makes me an asset to any team. The technical and business acumen that I have acquired with over 5 years of client-side experience would prove invaluable to any company.
